Volume 30, Number 50 | CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA | 10c per copy | Thurs., Dec. 3, 1953

A HAPPY THANKSGIVING . . . was assured a needy family last week, when Tommy Wight (left), Tommy Balgooyen and Philip Neujahr, accompanied by Mrs. Earl Wight, distributed a basketfull of food and groceries. The boys, members of Cub Pack 20, San Tomas area, earned the money to buy groceries, by doing odd jobs for friends and neighbors.

Chamber Of Commerce Warns That City May Be Ringed With Shopping Centers

An appeal for alertness was made in letters mailed to members of the Campbell Chamber of Commerce this week by W. B. Enochs, secretary, who warned hat, "Unless we stay on our toes, Campbell will be encroached upon from all sides by our neighboring cities and we will be ringed with shopping centers and become only a bedroom for other towns, having to support city government, schools and other civic projects without benefits to which we are entitled".

Most of the money earned by Campbell residents would be spent outside and the profits would go to the support of other towns, the letter contends.

Enochs in looking to the future and its ever increasing population, commends the passage of the school bonds to relieve crowded conditions in the High School, also pointed out that many shopping centers now planned would when completed, surround Campbell, and asks;

"What are we to do? Are we going to sit idly by and let things take their own course? Do we want Campbell to grow and become a progressive city of which we may be proud? If so its growth must be planned and carefully supervised. Every resident must take an active interest in city affairs. We must pool our knowledge, efforts and resources".

An active Chamber of Commerce, Enochs states will advertise Campbell and let the world know what a wonderful place Campbell is as a place to live, to bring new citizens and new businesses, all through a mutual cooperation.

Supervisor Walter S. Gaspar agreed with the letter writer. He said," There are two San Tomas Aquino streets and they cross each other, believe it or not."

The petition was referred to the County Planning commission.

COMMIE PLANS TOLD AT LOCAL TRI CLUB MEET

An estimated 150 members of Campbell Kiwanis, Rotary, and Lions Clubs assembled in the Campbell Countrywomen's clubhouse Tuesday night for the annual tri-club meet presided over by club presidents George French (Lions), Emerson "Doc" Arends (Rotary), and Milt Nelon (Kiwanis).

Principal guest speaker was Fred Buechner, who represented an official residents association which has come to be called "Kukui Imua 2" (Help Progress) an anti-communist committee. One of the principal aims is to thwart Communist plans to use Hawaii, which Buechner said, is proposed by the Communists to be used as a springboard for future attacks against the United States.

Buechner told the assembled club members at Tuesday's meeting of his visit to the U. S. State department and of his interviews with high government officials. From an interview with Dr. Yang, Korean ambasador to the U. S., Buechner said friction between the East and the U. S. which is partly due, according to Yang, because the U. S. is taking orders from the British.

Buechner told of his visit to the Russian Embassy and mentioned the literature distributed which told of communism in the United States.

Buechner said that only talk will come from the Korean treaty talks.

On the entertainment program for the tri-club meeting, the Campbell Kiwanis club Quartet consisting of C. P. Klassen, Rev. Herbert Neale, Howard Guilbert and Lloyd Nelson rendered several selections which were much enjoyed by the assembly.

Introduced by Dean Chamberlin, was Diane Holman who spoke to the group of the needs of Campbell Union High School district for a second high school in the Cambrian Park area at Camden and Union Avenues, bonds for which were successfully voted on this Tuesday. The $2,500,000 voted is to be used for the construction of the new high chool and to purchase a site for a third school.

SUFFERS INJURIES

Mrs. Emily Eckland, 45, of 14322 Holden Court, suffered minor injuries in a two-car collision at the intersection of Cole Drive and Standish last week.

She was a passenger in the car driven by her husband, Robert, 49. Driver of the other vehicle was Oswald Lutter, 30, of 14963 Branham Lane, according to California Highway Patrol.

Eckland was westbound on Cole Drive and Lutter southbound on Standish, CHP reported.

Both vehicles suffered damage to front fenders. No citations were issued.

HAMILTON AVENUE WIDENING DISCUSSED AT COUNCIL MEET

Hamilton avenue, in its anticipated role as a feeder to the proposed route five freeway has been under discussion at city council meetings lately. At the meeting Monday night, Nestor Barrett, city planning consultant said, in answer to an inquiry from a Campbell property owner, the 86 foot right of way width will eventually be extended to 120 feet.

The paved surface of the street is 24 feet wide on the average, with present setbacks ranging from 40 feet at its narrowest part to 60 feet from the center line at its greatest, according to city engineer Mark E. Thomas.

Sam Prestigiacomo wanted the information in order to proceed with construction plans for his property in Hamilton near Eden avenue.

Earlier, the city was concerned with the State's plans for an above grade crossing of the proposed new freeway at Hamilton. City officials contended that a bridge crossing would cause a hazardous concentration of traffic in front of Hamilton school.

Expected by city officials in the near future is a freeway agreement from the state regarding an access road on Hamilton avenue to the intercharge on the freeway, using an alternative suggested by city representatives.

Request of Vincent Bruno, representing Mission Taxi Company, for a boost in cab rates, from 35 cents to 50 cents, with meters registering 5c increases for each one-sixth of a mile, was deferred for two weeks. Council said it felt more specific information, including a comparison of rates in other cities of similar size, before it could act on the application.

Bruno presented a report showing the projected cost and reports of firm's yearly income which he alleged to be inadequate.

Campbell Fire Chief Jack B. Scott received the green light for installation of a 30 foot flagpole bearing the U. S. and the Bear flags in front of city offices. American Legion Post of Campbell has offered to donate and install the pole. Scott was also granted permission for city offices to connect with county communications set up in event of emergency.

N. Nimerick was granted permission by the city council, Monday night to install an 11-ft. sidewalk in front of his building south Winchester Road near Winchester Hardware if he placed a 490 deposit for cost of improvements.

In other council action: (1) Gilbert Krug of Darling-Fischer-Krug Memorial Chapel was granted permission to remove two trees from the parking strip adjoining the mortuary, on Campbell avenue.

(2) Pacific Telephone and Telegraph Company was granted permission to trim a hole through trees on Rincon avenue for installation of an aerial cable, and to drill for excavation an underground cable at a different location.

(3) Received two warrants, $275 from the State Department of Finance reimbursing engineering fees for improvement of Hamilton and Milton avenue and $39.23 from the state compensation insurance fund.

PUBLIC ASKED TO AID IN CITY STREET SURVEY

At a special meeting of the Campbell Planning Commission, December 10, the public, heads of area civic organizations, and city officials will be asked to cooperate in compiling an accurate count of traffic on Campbell streets.

The survey is part of the planning commission's attempt to arrive at an accurate picture of the downtown business area, as a reference for future recommendations to the city council regarding volume and destination of foot and vehicular traffic.

At the last meeting of the planning commission, November 19, origin and destination locations were discussed. It was decided that an accurate picture of street use could be obtained in a sixteen hour daylight count, with four officials at each location. Officials agreed that an attempt be made to enlist the help of 150 senior students from Campbell Union High School, and at least 55 adults, preferably well-known heads of area civic, fraternal and religious organizations.

Necessary manpower would include, according to the discussion, one police officer and a minimum of three persons at each location. Ten men would be required to supervise and coordinate all activities.

Planning commission chairman, John M. Chargin appointed commissioner Homer Hyde to seek aid from the Chamber of Commerce in this survey.

At the special session of the Planning Commission called for December 10, a citizens correlating group will be organized to which the mayor, fire chief, police chief and heads of area organizations, high school superintendent, the City attorney, and officials of Campbell Stamp Association will be invited.

City Attorney Joseph A. Bonachina is to confer at three o'clock this afternoon with Howard Campen regarding the Campbell share in cash due from the dissolution of the Campbell Fire District following incorporation a year and a half ago. With incorporaion, March, 1952, the Campbell Fire District was dissolved, becoming instead the Campbell Fire Department.

The wonders of television still can't compare with the drama and excitement of cattle being driven to market for J. A. Corn, 98 year old Campbell resident. Corn, keen-eyed and alert at 98 remembers the days of the old west, as a cowboy, and ranch manager on the Texas prairies 75 years ago. He and Mrs. Corn are anxiously awaiting the arrival of family members from Texas who will join them in Campbell for the Christmas holidays.

Cambrian Area Ask Annexation To Lighting District

Cambrian residents of streets adjacent to the Cambrian Park Lighting and Maintenance District recently petitioned for annexation to that district.

Several pages of names were on the petition from property owners and residents on portions of Clydelle, Union Avenue, Branham Lane, Charlotte, Cooper, Dickens, Brewster, Esther, Bel Estos, and Bel Escou streets and Drives.

The petition was referred to the County Counsel by the Board of Supervisors.

HIGH SCHOOL BONDS PASS, 3792-902; CONSTRUCTION OF NEW HIGH SCHOOL TO BEGIN AS SOON AS POSSIBLE

Construction of a new Campbell Union High School at Camden and Union avenues will begin as soon as possible, Laurance J. Hill, superintendent said yesterday following the successful $2,500,000 bond election, Tuesday.

In the largest turnout ever recorded in this area for a bond election, 4,694 voters of the 12 high school precincts, voted, 3792 to 902, in favor of bonds for the new school.

Hill, in a statement to the Press yesterday, said, "The large vote turnout indicated the interest of the people in Campbell to provide the best in educational facilities for their children." He said Tuesday's vote was the largest vote ever held for a high school bond election in this area.

Hill said that while the percentage was approximately the same as that in the bond election of 1950 which made available the 40-acre site on which the new school will be built, the "yes" vote in Tuesday's election (3792) was greater than the toal vote in 1950. (2771).

The total vote in Tuesday election provided a comfortable margin over the two-thirds required for successful passage of the bonds.

Funds voted Tuesday will make possible the purchase of a third site, in the west side of the district, the addition of new classrooms at the present high school, and will keep the district bonded to its limited indebtedness to qualify for further state aid.

The new school will be built in units, with the first section planned for occupancy by freshman and sophomore classes in the Fall of 1955. It will relieve overcrowded classrooms at the present school now operating at peak capacity of 1750.

BUCCANEERS WIN SCVAL CROWN AGAIN

Campbell High School gridders enjoyed their Turkey Thankgiving day after an 11 a. m. workout which netted them (1) one more wildcat hide, slightly damaged by 20 points, and (2) a 1953 duplicate model of the Santa Clara Valley Athletic League football crown.

A twin model was awarded Fremont High School.

Only damage to the Bucaneers in their two hour scuffle was to their pride by permitting seven points to be scored on them and a dislocated elbow for team member Dick Carter.

A capacity throng of 3,000 watched the superior manpower in the waning stages of the battle give Campbell the decision.

It was Campbell's fourth win against 13 losses and a tie in this 18 year old series. It also marked the first time the Bucs had defeated the Wildcats two years in succession.

Don Davis scored two touchdowns, and ran for 138 yards on 14 carries for a 9.9 average per attempt, Gregg carried 17 times for 91 yards, 5.4 average and Montero made 78 yards on 15 attempts, a 5.2 average.

The Wildcats went 72 yards in seven plays to register their lone touchdown, in the second half.

Campbell's heavier squad was evidenced in their accumulation of 313 yards rushing to the Wildcat's 86, but Los Gatos netted 55 yards in the air to Campbell's 15.

Methodist Men Host Lads At Annual Dinner

More than fifty men and lads gathered Monday evening at the social hall of the Methodist Church for an annual dinner sponsored by the Mehodist Men's Club. Men either brought their own sons or a neighborhood boy and they all had thrilling entertainment from Bill Young, a private detective and crack pistol shot.

Young spoke on "Safety with Firearms". In his exhibition in a special cage he demonsfrated many trick shots.

The dinner was in charge of Mrs. Frank F. Richardson who was assisted by Mesdames Norman Pratt, Charles Mitchell, George Green, Herbert Binley and Anna Rhine. Presiding over the program was M. S. Estabrook of 763 Shamrock Drive, president of the Men's Club.

NATIVITY SCENE TO BE ERECTED AT HIGH SCHOOL

A nativity scene of appropriate size, coloring and lighting will be erected in an alcove of Campbell Union High School on Winchester road in a cooperative effort by students and faculty of Campbell Union High School, and Campbell Merchant Stamp Association, Cel Gerevas, president said today.

County Planners Hear Local Issues

Included in yesterday's agenda of the Santa Clara County Planning Commission was a petition of George W. Jones, to reclassify certain property from R-1 to C-2 zone. Property is located on the north and south sides of Hamilton Avenue between Meridian Road and Birch avenue.

Also heard at yesterday's meeting was the public hearing on the application of San Jose Water Works for a use permit to construct a ten million gallon earthen reservoir for public utility use on property located on the northerly side of Cox avenue at the S. P. R. R. crossing.

STREETS AND TRAFFIC

Steps toward widening North Winchester avenue by a property owner may be the forerunner of a more complete undertaking there. Traffic on the Santa-Clara-Los Gatos highway through Campbell is getting heavier day by day and any business that is located on this thoroughfare seems handicapped by a lack of adequate parking space. The potential for shopping there, however, is good if both street parking is free from fast moving traffic and if off-street parking can be provided.

Hamilton Avenue is now looked on by officials as a thoroughfare which will command heavier traffic when the arterial flow from the new freeway is linked to it.

Streets and traffic are bound to be important factors in Campbell, the heart of fast-growing Santa Clara Valley, and as time goes on, there will seem to be a never-ending number of demands for improvements. Fortunately the State of California helps with improvements of roads which have been dedicated as of major importance, apportioning the quarter cent gas tax on a basis of population. In this respect, a special census sometimes increases the census figure which will substantially increase the amount of money allocated to the city for street improvements. It may be that at an opportune time these steps may have official consideration.

According to Adlai Stevenson, in a discussion about golf and politics, the Democrats are shooting 108 — out in '52, back in '56, which would be a good score if they make it.

YOUR SHOPPING LIST

Tucked away somewhere, most of us have a shopping list. At this time of the year everything seems smoothly lined up for leisurely shopping for Christmas. The weakness of this is that we are apt to procrastinate and let it go on until tomorrow, then the next day until at long last there is a rush and a frenzy for last minute purchases.

Merchants in Campbell have anticipated this and have stocked a most abundant and varied lure of gifts. True enough there are quite a few days left for shopping, but the choice merchandise is ready now and your home-town merchant has made a selection comparable with the best to be found in larger centers.

The time to start with that shopping list is now, and the place to use it is in Campbell.

DECEMBER 7, 1941

It's hard to realize that some of the events of World War II are now more than a decade behind us. This December 7 marks the 12th anniversary of the attack on Pearl Harbor which all but knocked out our Pacific Fleet and knocked us squarely into the world struggle.

"Remember Pearl Harbor!" was the rallying cry of those war days, especially the early desperate days when our fate hung more in the balance than most of us realized. But after 12 years it's still important that we remember Pearl Harbor. It's important not for the purpose of re-kindling a feeling of bitterness toward the attackers which has long since vanished, but in order that we may never forget the imperative need of always keeping our guard up.

The American people do not seem to have fear of another sneak attack. We had no fear of such an occurrence 12 years ago, either. But that didn't prevent it. In fact, it made it possible. The point is that not being afraid doesn't make us any safer. The only practical safety lies in strong armaments and in an alert warning system that could detect invading planes no matter where and when they approached. Military leaders tell us that we do not have such a system now, because of the failure of the American people to respond in sufficient numbers to serve as plane spotters. It's hard to understand why such indifference when we know what the consequences could be.

Had we been more willing to make sacrifices before Pearl Harbor, that tragedy could have been averted. We had better make a few now so that we may never have another December 7.

SOUNDS THE SAME

The Campbell Gambol

LITTLE THINGS IS what Chester Stojanovich of Union avenue has been studying and writing about for several years, both as a student at Stanford Unversity and as an official for the U. S. Department of Public Health . . . . looks into the family habits of tiny insects which study he calls microentomology on which subject he has published some journals for the government . . . he did much of the research work for a book published by Professor G. F. Ferris of Stanford University . . . . the book had a technical name but reviewers chose to refer to it as the "History of a Louse" and in 1951 it was one of the best sellers . . . Stojanovich, a long time resident of Campbell, is interested now in audio-visual research work in the field of biological science which he says is only in its infant stage.

MOVING ALONG The highways and through the air presents quite a bit of food for thought these days . . . take for instance, the case of Orme Shockley, oldest son of Mr. and Mrs. Crawford W. Shockley of 66 El Caminito avenue who expects to complete flight training as a jet pilot some time this month and who returned a fortnight ago to his base at the Bryan Air Force Base in Texas after a visit here in Campbell . . . his parents saw him take off at Hamilton Field, north of San Rafael in Marin County, telling him to let them hear from him on his arrival . . . they stopped along the way for a bite to eat then continued on the highway fighting traffic until they arrived home. . . on opening the door they heard the telephone ringing with the message that Orme had already arrived at his base in Texas.

CAMPUS ECHO from the High School sounds off with a satirical bit on Winter fashion predictions for Goofy Guys, listing . . . pink and blue angora socks, linoleum shoes, Bermuda shirts in shades of pink and blue, black and brown loafers, pogo sticks instead of cars, fur collars and cuffs, jewell-sweaters, black velveteen Toreador pants, homberg hats and crazy pink nail polish for fingers and toes . . . just the same, the young people got together Monday with an all-out distribution of several housand special copies of the Campus Echo! dedicated to the passage of the high school bond issue, and there were few if any home in the entire high school district which did not receive one of these from the hands of one of the students.

THIS COL'M was twisted about a bit last week, and unless you also read the biographical sketch of our City Councilman Oliver P. Jensen, you wouldn't know what we were trying to tell you about the porte cochere being extinct here, and . . . if you did read the Jensen story,, we would just as soon not say any more about it. . . the porte cochere for horse drawn vehicles was popular in the early days as the surrey with the fringe on top could draw up along side of the house, and we were trying to tell you that this new zoning ordinance makes it alright for you to build one of them, only what are you going to do about stabling the horse, or having him shod . . . T. H. Martin who has operated a blacksmith shop on Railroad avenue for many years says there are no more porte cocheres about now so far as he knows, and that he has quit shoeing horses as folks find it too risky bringing them across the highways and those who own horses now days depend on itinerant blacksmiths bringing tools and forges to the horses for shoeing.

Campbell Student Receives Praise For TV Appearance

Campbell residents voiced favorable comments on last week's "Science in Action" program preented by American Trust Company in which a Campbell Union High School student appeared as a junior guest scientist.

Residents praised the poise and presentation of Robert A. Stubbe, 17, a graduating senior, who was chosen for the television appearance on the basis of his interest in science, his high grades in science subjects, and his intention to follow a career in science.

Stubbe has maintained a straight "A" standing during his high school years, and is a member of the California Scholastic Federation. He is also a member of the school's tennis team and a letter winner in that sport.

Robert has chosen engineering as a career and plans to enroll at either San Jose State or University of California upon graduation from Campbell High.

The program on which Stubbe appeared, the winner of 20 major awards during its three years on the air, is sponsored by American Trust Company and is produced by the California Academy of Science.

It is seen each Tuesday from 7 p. m. to 7:30 p. m. over KRON, Channel Four, San Francisco.

Profile of The Week

This column attempts to acquaint Campbell residents with the background of most of its leading citizens, to make for a greater interest in the activities of the Campbell area.

Pictures from the files of the Campbell Press will be drawn, by lot, for the first of the articles. When this supply is exhausted, pictures of newer residents will be taken, to run in conjunction with stories.

Oliver P. Jensen, Campbell Union High School building inspector and city councilman comes from a long line of long-lived relations. He recently reached the half-century mark himself, which he terms

the half-way mark as he looks forward to many more years of service to the school and community.

Born in 1903 in Alameda, the first son of a family of three brothers, Jensen has lived in the Campbell area since 1912 when his family settled on a ranch in the Cupertino area.

He attended the old Lincoln Grammar School, at the intersection of Prospect Road and Saratoga-Mountain View Road.

Following his graduation from Campbell High School in 1923, Jensen went to Denmark to help celebrate his grandparents' 60th wedding anniversary. His father Martin Jensen is still hale and hearty at 96. He lives in San Raphael.

He entered San Jose State College on his return from Denmark, after which he entered the construction business. He has been active as a contractor and builder in this area, in Palo Alto, San Francisco and other points of the west coast.

In 1930 he married the former Marian Austin of Campbell. The couple have one daughter, the present Mrs. Jean Jensen LaMar.

In 1950 he was appointed building inspector for Campbell Union Higr School, a job he had occupied during the construction of the present high school in 1935-36.

Jensen is associated with the Cupertino Masons, Scottish Rite Temple of San Jose, Santa Clara Valley Shrine Club, and Islam Temple of San Francisco.

SPEAKING OF WATER

Dear Consumer:

Charles B. Parbury

"Why should I have to pay water bills? Water should be as free as the air we breathe! It's part of the people's heritage!"

Have you ever heard such sentiments expressed? We in the water works business hear them occasionally when folks come in to pay their water bills. We always try to give an honest and sensible explanation; and because most people are reasonable when they know the facts, they usually admit that perhaps they had the wrong slant.

As a matter of fact we're not selling water. You can still drill a well to get water underground, or you can drive your car over to the Santa Cruz mountains and get a bucket of water from one of the creeks that flow down from the mountains. Of course, with the well you'll either have to pump up the "free" water by hand or provide some kind of power. Or after you've filled your bucket, you'll have to carry it home. And in the majority of places where you can get "free" water, you'd better boil it to be safe.

So, by and large, although water is free to all, it isn't always handy when you need it nor is it always safe. That is where we water works people come into the picture. We determine the best available source of water, take over the job of collecting or purchasing it, transport it in mains from wells or reservoirs, guard its purity, and make sure that we have an ample, safe supply on tap for your use twenty-four hours a day, 365 days a year.

The Bible speaks of "drawers of water." Well, I guess that's what we are. We "draw" the water and "carry" it to your home or place of business. For that "drawing and carrying," plus purification, you folks get a monthly bill. You are paying for the hundreds of complicated jobs we perform so that you can always have good water when you need it.

Sincerely yours,

Gift Envelopes Free At Postoffice

Postmaster Ira H. Grim today came up with a practical gift suggestion that should solve the problem of many a perplexed shopper.

"It's a U. S. Savings Bond," he said, "and we find that every year more and more people are finding them a wonderful olution to the last minute gift buyer's dilemma.

"We have a handsome gift envelope in full color which will be given to those who buy Savings Bonds for their loved ones, friends or business associates. With this idea, the Post Office can become your gift headquarters.

"A $25 Savings Bond looks a lot bigger and better than a check for $18.75—yet that's what the $25 Bond costs. Each denomination Bond has a face value that is one-third greater than its purchase price."

SWEET WILLIAM, FORGET-ME-NOTS BLEND IN COLORS

In the excitement of new introductions we often tend to overlook the old fashioned garden favorites such as Sweet William and Forget-Me-Not. These two are still worthy of usage in the gardens of today and are of proven merit for their particular purposes. Sweet William is a strong growing biennial which must be planted one year to gather the reserve strength necessary for a dazzling effect the folloing year. If planted NOW, Sweet William will make a fine show of color next May and June.

There are both single and double forms of Sweet William and according to the California Bedding Plant Advisory Board the single form is by far the showiest. Also there is a dwarf and a tall growing strain and here the home gardener must choose according to his need.

The tall Sweet William works well for full bed plantings in sunny areas and is grand for bouquets with its long stiff stems and big showy flower heads. It is wonderfully drought resistant and can be worked in perennial borders with Alyssum Saxatie, Coral Bell, Coreopsis, Gallardia, Geum and other similar material. The dwarf form of Sweet William grows short enough (about 6") to qualify as a border plant. With its long succession of bright Sweet William blossoms, it makes color all summer long.

Forget-Me-Not is another old fashioned favorite that still holds its rank in the modern garden.

Telephone Rates Up Four Cents A Day Statewide

Pacific Telephone today filed an amendment to its application for statewide rate increases now before the California Public Utilities Commission.

"Our costs have been going up steadily, but rates have not changed since 1951. With this amendment, the total rate increase sought will average statewide about four cents a day per telephone."

When we came West, we found out...
Gas and electricity are cheap in California
says Mrs. John C. Jones, of Menlo Park, shown with her daughter, Linda
How P.G. and E.'s low rates save the Joneses money
The Joneses' P.G. and E. bill for a recent month was $12.39
In their former home the same amount of gas and electricity would cost $23.24

"I wonder if most Californians actually realize how little they pay for gas and electricity," asks Mrs. Jones. "When we moved West six years ago, we found these services cost far less here than where we used to live."

How many things can *you* think of that are still available at prewar prices? Yet P.G. and E.'s combined rates are actually *lower* now than in 1938. So let low-cost gas and electricity do more of *your* work make your life more pleasant.

FOUR CAMPBELL AREA RESIDENTS MEET VIOLENT DEATHS; TWO TOTS, NURSEMAID, BOATMAN ARE VICTIMS

Four violent deaths marred the joys of the Thanksgiving holidays in the Campbell area, and brought sorrow to the homes of fatal accident victims.

Especially tragic were the deaths of two children who died under the wheels of passing vehicles. Debra Lynn Abbott, the two and one-half year old daughter of a San Jose liquor control officers and her nursemaid, Mrs. Laura Perry, about 55, who lived with the Abbotts were dead on arrival at County Hospital shortly after 6 p. m., Monday, after being struck down by a car while crossing Stevens Creek road in front of their home. The child's father, James P. Abbott of 2429 Stevens Creek Road was an eye witness to the accident.

In the Cambrian Park area, Thanksgiving day was a day of horror for the parents of Karen Turner, age 2 years nine months, who died the day before beneath the wheels of a moving milk truck.

According to investigating officers, of the California Highway Patrol, Karen apparently rode her tricycle in front of a milk truck just as the driver was starting up after making deliveries in the neighborhood. She was dead on arrivel at O'Connor Hospital.

The truck driver was identified as Ancel Gardin, 30, of 13578 Marmont Way, San Jose, an employee of Mission Creameries. California Highway Patrol was advised by District Attorney N. P. Menard not to initiate prosecution of the driver at his time. He was not held and no charges were filed.

Don Findlay of Cambrian Park Improvement Association expressed the grief felt by residents of he community. He said, "I believe I can speak for members of our group and all other friends and neighbors of the Turner family in expressing our heartfelt sympathy. We are a communiy of home-owners. Tragedies involving children strike deeply into our hearts."

The Turner child is the second milk truck victim within the past two months in the Cambrian community.

On October 14, seven-year old Janet Gibbs met death under the wheels of a milk truck backing out of the driveway of her mother's home at 227 Redding Road. Driver of the milk truck, Frank Orrovigio, 32, of 1258 Nenton Sreet, Santa Clara, said recently the accident had "taken 20 years off my life."

Funeral will be held this morning from Darling-Fischer-Krug Memorial chapel in Campbell for Jefferson George, 74, who met death in a boating accident while fishing off Santa Cruz, Sunday.

He and a companion, 19-year old Lee Hereford, son of Mr. and Mrs. Frank J. Hereford of 37 Kennedy Avenue, were fishing 150 yards off Lighthouse Point, when their light skiff capsized. A nearby fisherman, Melvin Stubendorf, of Santa Cruz, succeeded in reaching Hereford after a high wave knocked over the pair's light boat.

Stubendorf said he could not reach George in time. George's body was recovered 45 minutes later.

He lived with a brother, Sol, at an apartment house at 170 E. Campbell avenue. He also leaves another brother, Robert George of Missouri, a sister, Mrs. J. M. Bohanon of Texas, a son, Oral of Los Gatos, a daughter, Selma Farbstein of Iowa. He was the grandfather of five, and great grandfather of four.

For the past 20 years he was a night watchman for the California Prune and Apricot Growers Association warehouse on Central avenue. George was a rancher and stock grader, banker and real estate agent in Missouri before coming to Campbell. Interment will take place at Oak Hill Memorial Park.

CAMPBELL BPWC SUPPORTS E.R.A.

A special meeting of the Campbell BPWC held at the home of Mrs. Alma Fanning, club president, Monday evening, November 30th, was to formulate a program of publicity to acquaint the community with the merits of the Equal Rights Amendment—ERA.

An alert audience listened to the presentation of the background and purposes of the ERA by members of a special panel: Mrs. Thelma Solari, Mrs. Diana Payne, Mrs. Marie Tunstall, Mrs. Margaret Leick, and Mrs. Dorothy Ellis.

Mrs. Solari gave the background of this amendment. The National Federation of Business and Professional Women's Clubs has striven to achieve the passage of the Equal Rights Amendment for thirty years. The Federation believes that the passage of this amendment would not only open the door to full citizenship and achievement for women, but would also add prestige to the United States as a member of the United Nations, enabling them to stand before the world as a nation that gives equal rights and full citizenship to women.

Mrs. Ellis, radio and television chairman, also spoke of the history of the ERA. She stressed the fact that men as well as women will benefit by the passage of this amendment. Also, when women have equality before the law and achieve equality of opportunity, they will have to stand on their own merits, wih no excuse for substandard performance of lack of character.

Panel members brought out the fact that the National Federation of BPWC believes the ERA will not in any way lessen or nullify laws already on the statute books safeguarding the health and safety of women. As citizens, with full privileges as citizens before the law, women, as well as men, will be in the best possible position to achieve the passage of laws promoting their health, welfare and advancement.

After much discussion by members, a motion was carried directing each club member to contact at least five women, inform them of the merits of the ERA, and urge them to write congressman from this district, asking his support for the passage of the Equal Rights Amendment, as originally proposed.

ADVENTISTS CLOSE WEEK OF PRAYER

The Seventh-day Adventist Church climaxes its observance of the annual Week of Prayer with an "Offering of Sacrifice".

Members had been following a program of frugal living during the special week of prayer services, and many will follow the tradition of contributing an entire week's income to the advancement of Christian work.

The observance this year has featured special messages about the power of prayer. These have been given every evening at the church, and members have joined in prayers for the divine guidance of nations and for the completion of church work around the world.

In a message prepared for closing services Saturday, William H. Branson, Washington, D. C., president of the denomination's General Conference, tells members, "The hope that one day Jesus will come again has been the joy of the church in all ages. The signposts of prophecy indicate that he is now 'even at the door'.. And instead of cringing with fear because of the perils with which they are surrounded, Christian people should be full of courage."

FINAL BONUS BALLOTS PLANNED FOR LAST EIGHT DAYS OF CONTEST

This is the "home stretch" of The Campbell Press's great Circulation Club as the campaign closes Friday, December 11 at 8 p. m.

Interest and rivalry of participants have mounted to a high level and entrants are working day and night to get those Press subscriptions which will pay off in six awards and liberal cash commissions.

In order to make it more exciting than the prospect of flying away to the Hawaiian Islands, the Club member who turns in the largest amount of money on NEW subscriptions to the Press between Tuesday morning Dec. 1st and Monday, December 7 at 5:30 P. M. will be given a cash award.

The votes secured in working for the special cash award, will count also on the other awards.

Bonus Ballots will also be awarded on the largest amounts of money turned in during the time, both new and renewal.

Ten ballots will be awarded again but for smaller amounts of votes.

The one who secures the cash award, will also receive a bonus ballot for 250,000 votes. This will be upon new subscriptions only, the same as the special cash award.

The next to the largest ballot will be for 200,000 bonus on new and renewal subscriptions, third 175,000 bonus, fourth 165,000 bonus, fifth 150,000, sixth 125,000 bonus, seventh 115,000 bonus, eighth 100,000 bonus, ninth 75,000 bonus and tenth 50,000 bonus votes, all on new and renewals.

The last four days of the contest, the only extra votes, will be upon amounts of subscription money, such as have been awarded since the beginning of the campaign.

There will be no more free coupon votes published but the ones still out must be brought to the office of the Press by 5:30 P. M. Monday, December 7. None will be accepted after that time.

All club members are requested to check their votes as they appear in today's Press, as they will be asked to certify them for the benefit of the judges of the campaign, who will count all reserve votes and those in the ballot box which will be locked after Monday, Dec. 7, and in which all subscriptions turned in the last four days will be placed.

This box will be at the office of The Press and will not be opened until after the contest is over when the judges will take charge.

This is done in order that no one may know how much the club members turn in at the last.

The judges will be well known citizens of the vicinity whose names will be published next week.

Miss Hancie Naylor is still at the top of the list, Mrs. Wanda Ray has second place this week, Mrs. Louis Brandon is third, Mrs. Romaine Baker fourth and Miss Pat Taylor a close fifth. Mrs. Richard Bebeau and Tom Mitchell have made large gains this week.

The weekly standings have been for the week only but next week the approximate standing for the entire circulation club will be given. These votes will consist of subscriptions and free coupon votes.

After the campaign is ended the entire number of votes will be published so that every one may know just how the awards are made.

There is still a chance for every one who is in the running to win one of the top awards.

The standing to 5 P. M., Monday, November 30 is given below.
